
Chris Pelella, Associate AIA

Chris has 13 years of experience at Sullivan Architecture as Designer and Project Manager. Chris' day-to-day involvement requires project coordination, programming, zoning and building code analysis, design development, construction documents, consultant coordination, assistance with bidding procedures, and on-site construction management.

Chris has a broad background of diverse project types and sizes. Recent projects include overseeing construction of a modern single-family residence in Armonk, NY, which utilizes many "green" technologies, the Ardsley Firehouse, in Ardsley, NY, St. Raymond's Boys High School, located in Bronx, NY, and Resurrection Middle School Gymnasium, in Rye, NY.

Additionally, he is in the design phase of the complete renovation of the former White Plains Hotel. This project involves the conversion of a 15-story and five-story building into 212 loft-style apartments.
