
John D. Fry, AIA, LEED AP bd+c

As Director of Design and Project Architect at Sullivan Architecture, John Fry oversees all high performance sustainable and “green” building designs for the firm. His experience includes a diverse scope of project sizes encompassing large scale master planning, commercial, institutional, small and large scale multi-family, hospitality, municipal, custom single family and single-family subdivisions. John joined Sullivan Architecture in 1989.

Mr. Fry’s recent projects of note include, Corporate Flight Operations at Westchester County Airport, which received LEED Platinum Certification, and most recently the Egan Pavilion at the John Cardinal O’Connor Retired Priests Residence in Riverdale, NY for the Arch Diocese of New York. Repurposing historic structure projects include “Stonehouse” Guest Residence for Citigroup. Presently, John is creating designs for a 68-unit luxury condominium project in New Castle, NY.
