

Vincent Mastromarco

Vincent is a project manager who has 26 years of experience in the architectural design field and ten years of experience working at Sullivan Architecture. Vincent is constantly active in direct client and contractor management, project team coordination, design development, administration of construction document preparation, assistance with bidding procedures, and construction administration where he has had extensive experience working collaboratively with construction management companies and project trades.

Vincent's experience involves a broad range of project types and sizes, including residential and commercial. These include, Triboro Offices, a 5,800 sq. ft. interior office building alteration project in White Plains, NY, an addition and alteration to a private 8,000 sq. ft. residence on the Long Island Sound in New Rochelle, NY, and St. Raymond Boy's High School, a 14,000 sq. ft. project consisting of a two-story addition which included an art room, music room and other classrooms in the Bronx, NY. Currently, Vincent is project manager for the Egan Pavilion in the Bronx, NY, a project entailing a three-story addition and 46 new suites to an existing retired priests' home.
